## PROFESSIONAL SUMMARY

Creative and dedicated actor with over 7 years of experience in the film and theatre industry. I have performed in a range of productions from independent films to stage plays. I'm passionate about telling stories and committing to the character/s in order to do so. I trained in the Meisner Technique and I have taken my acting cues from Mamet and those who've studied with him. Creating in the service of story and expression isn't just something I like to do, but I need to do. I believe one must be humble in life and respectful of all involved in this work, including the audience. I look forward to seeing how we can collaborate in the service of bringing meaningful story to life.
